COMMUNITY
LAND ACKNOWLEDGMENT

The University of Arizona sits on the original homelands of indigenous peoples who have stewarded this land since time immemorial. Aligning with the university’s core value of a diverse and inclusive community, it is an institutional responsibility to recognize and acknowledge the people, culture and history that make up the Wildcat community. At the institutional level, it is important to be proactive in broadening awareness throughout campus to ensure our students feel represented and valued.

Arizona is home to a number of thriving cultural communities for all students. The university’s cultural and resource centers include:

- The Adalberto & Ana Guerrero Student Center
- African American Student Affairs
- Asian Pacific American Student Affairs
- Lesbian, Gay, Bisexual, Transgender and Queer+ Resource Center
- Native American Student Affairs
- Masculinities in the Mix
- Women and Gender Resource Center
- Immigrant Student Resource Center
- Veterans Education and Transition Service Center
- Common Ground Alliance
- Global Experiential Learning
- Disability Cultural Center

Each center provides a variety of involvement opportunities for leadership development, internships, jobs, financial aid peer advisors, tutoring, mental health initiatives, as well as culturally sensitive programming to support students in their pursuit of academic excellence.
The mission of the Adalberto & Ana Guerrero Student Center is to help students achieve academic and personal excellence by shaping a safe and inclusive campus environment through culturally affirming programs and events that cultivate a sense of belonging, build community, encourage critical reflection, and develop students as learners, leaders and professionals.

The DCC is a new and exciting space for students, faculty and staff to explore and celebrate disability identity, culture and community. DCC will offer a variety of events and programming that promote an authentic and intersectional perspective on disability. The DCC is a casual space for students to drop by anytime.

"Disability culture" and "disability pride" are terms referring to a wide variety of movements and subcultures that promote the idea that disability can be part of one's identity that can intersect with race, class, gender and gender identity/expression, sexual orientation, national origin, linguistic background, religious and philosophical beliefs, etc.

We generate art, music, literature and other expressions of our lives and our culture, infused from our experience of disability. Most importantly, we are proud of ourselves as disabled people. We claim our disabilities with pride as part of our identity. This is a way to challenge the disempowering societal views of the disability experience focused on cure.
